

ARPA LEAD HAZARD REDUCTION PROGRAM

Helping Milwaukee Homeowners Live Safely & Securely

FREE LEAD ABATEMENT

Milwaukee Habitat is now offering free lead abatement services for homeowners in qualified census tracts. Qualifying homeowners can have lead paint removed at **NO COST**.

Lead abatement is designed to make houses safe from lead-based paint hazards in the home. If your home was built before 1978 it may contain lead paint. Homes built before 1950 usually have the highest concentrations of lead paint. Repairing and remodeling painted surfaces in homes built before 1978, if done in an unsafe manner, can be hazardous to children. If lead dust is swallowed or breathed, it can cause lead poisoning.

Basic Qualifications

- Own & Live In Your Home
- Property was built before 1978
- Property taxes are current
- Applicant must have homeowners insurance that covers complete loss for property
- Household must have children and/or a pregnant woman living in or regularly visiting the home
- Household income must not exceed income guidelines
- Property must be located within a Qualified Census Tract

Mitigating Lead Hazards From:

- Drywall
- Doors
- Windows
- Exterior Walls
- Flooring
- & More

Lead abatement may require full replacement of these items. This would all be done at no cost for qualified homeowners.
